This is all the information that was available

### VI. REPLACEMENT PARTS LIST

The following list shows the only major parts of the heater recommended for field replacement by the owner or user.

Important: Order parts by name and part number. Include the Model and Spec. numbers from the heater's nameplate when ordering replacement parts. Order parts from your dealer.

PART NO.	PART NAME	PART NO.	PART NAME
M16895G1	Spark Plug Assembly	*M12578	Filter, Lint
M11146-1	Filter Element (air intake)	M12431	Fan
*M9942G3	Filter Element Assembly (air output)	**M10718-1	"O" Ring (Fuel Filter)
		**M14266G1	Fuel Filter Assembly

#### OPTIONAL EQUIPMENT

The following kits and accessories are available for heaters:

1. Automatic Safety Control Kit, Part No. M17152, converts Standard Heaters to Deluxe operation.
  2. AtoMaster Thermostat Accessory, Part No. M16141, for thermostatic control of heaters.
  3. AtoMaster Timer Accessory, Part No. M17029, provides timed on-and-off operation of heaters.
- \*M9942G3 Filter Element Assembly and M12578 Lint Filter are superseded by a new one-piece Filter Element, Part No. M15241.

\*\*The M10718-1 "O" Ring and M14266G1 Fuel Filter are replaced in Spec. 2992 heaters by a filter consisting of Part No. M17460 Filter Element, M16790 Filter Tube, M16791 Male Connector and M13849 Flared nut. These parts are not individually interchangeable with the old. Old parts will continue to be available.

A service assembly, Part No. M19756, is available which includes all of the new fuel filter parts and the M19112 Burner Head Body which is threaded to receive them.

**CAUTION:** A heater equipped with the M16790 Filter Tube must not be operated without the M17460 Fuel Filter Element in place in the tube.
